“ I worked with Bob in the mid 60`s and he was my first partner when i went on dayshift. At the time, we were installing seat belts. Working with him for about 6 months, I got to know him . I can still remember times he had problems with the blood pressure causing him nose bleeds. He was one of the good guys. A great person to work with. I liked Bob and often wondered what he was doing. I respected him. I will say a prayer for him. May God bless him and his family.
