“ *We would like to extend our love and prayers to the family. Uncle Cubie, would tell me how he would carry daddy around until his feet would drag the floor, him being the baby brother. He was that protective big brother and was still protecting him until the end. Now our hearts are heavy once more, for he will truly be missed. For uncle being, the last sibling of my father and the others have been laid to rest, including my mother, this as been a difficult time for him and he wishes he was able to attend, but we share your grief and we know that the God of comfort will guide the family in this journey.*
