“ My condolences to your family 💔 ☐

*With every memory ☐ I hear of her voice full of wisdom and my heart fills with love that was received from her.*

*My appreciation her for the life she lived with us, sitting on the porch or her yelling at us at the gate to make sure we made it home before the street lights came on.*

*Coming to visit getting a hug and sit at the table her few words held weight just a simple genuine check how them babies they about grown now hua? y'all all grown up now☐☐🥹.*

*Her protection, direction and the love she shared with us all. Thankful for her presence in our lives. She was a major part of a lot of our lives. So thankful for her and proud to have her in our extended family*
