“ *The entire staff at pulmonary rehab is deeply sadden by the loss of your mother. We had looked forward to her return with much excitement as she was cherished and loved by us all. Her caring manner and wonderful sense of humor was always present even on her bad days. I feel as though Juanita taught me more about life, living and helping others than I was able to give back to her in such a short time. Please accept our condolences and if there is any way we can contribute to her memory, please let us know.*
