“ *I will miss knowing that my friend is not there to listen to the things that go on with me. She was far from me but not farther than a phone call. She did not need to say anything just listen. We had some great times together in Flint, Port Huron and California. These memories will always be with me. She was a person that I could trust and know that she was there for me. I love you Milly and will cherish the times we spent together always your friend, Sylvia*
