“ *My prayers go out to you, the family. I was a patient of Dr. Roberts from my very first dental appointment as well as my siblings and my father. I am currently 31 years old so that's a long time. As a matter of fact he is the only dentist I have ever known Even though I really didn't like going to the dentist he always made me feel comfortable and was always just a nice man. A couple years ago my younger brother was able to do an internship at the office under Dr. Roberts and the staff. He was nice enough to extend himself in that capacity. Remember, Earth has no sorrow that heaven cannot heal.*

“ *My children and I were patients of Dr. Roberts for about fourteen years. He is the only dentist my children have seen. I feel lucky to have known him and to have been under his care. He always had the utmost concern for my comfort and was caring and respectful of my fears. His eyes were always so kind over the mask when I was scared. I will never forget the Easter Sunday I had an emergency and he was kind enough to meet me at his office to care for me. He was a special man, and I thank God that he came into my life. My prayers go out to his family and his staff.*
