“ To Tuffy:

When I last saw you, had no clue it would really be the last time I would literally see you. You brought much happiness to my sister which turned around and gave us happiness. You have been in our lives for a few decades, here and there, but still there! We all have memories of you. We laugh about you always having to be the bad ass. It didn't matter over what. Every one knew they could call on you if something came up and we knew you had our back. Your generous spirit and big heart with that smile is going to be missed by everyone. There are a lot of memories I have of you Tuffy, but the one that stands out the most is of you just being a loving man. I will surely miss you and am sad that you are gone. I will continue to think of you as I have always done and just be thankful that I had an opportunity to be part of your life.

My heart goes out to the family of Tuffy. No words I can say will take away any pain. I wish you to have peace as soon as possible on some level.

Mae, Dee may not be here, but I am. My shoulders are bigger than hers and I have a great ear for listening and hands that work if you need help with something. Just let me know.

“ Tuffy, this is harder than I thought but please know that I LOVE YOU and always will. We go back 20+ yrs. The day you came home was something that I will hold dear in my heart especially when you realized it was me...the night we went out for my birthday and we took that pic and having you sign it "much love and still growing after all these years", is priceless to me. Babe you were a good man with a huge heart. No matter who it was calling or what you were doing, you would drop it and go help. I admire you for that. I never had to worry about anything knowing you were a phone call away and you would come running, for that I Love You. You know my favorite word for you is BAE!!! With that said, BAE I am gonna miss you so much just like Maej I waited to see you for so long and now your gone. You will sadly be missed and always loved, your smile will live forever in my heart. GOOD BYE my baby RIP !!!!!!! Maej please know im here if you need me I know I'm 800 miles away but I'm here I love you!!!!

“ This will probably sound crazy but I am a clerk at Admiral gas station and I seen Tuffy's face in the obituaries while I was at work one day and was blown away because I seen him a week prior at the store. He was a regular of mine and always come up on a motorcycle and just being a super nice guy. I just wanted to express my condolences to his family and friends and just acknowledge that even though I didn't know him like all ya'll did I'm still shocked and sad to see this had happened so quick to someone. God Bless you all and I'll be praying for your family to get through this tough time. - Much love-
