It is a friend that when the work of life is done, it cuts the cord that binds the human boat to earth that it may sail on smoother seas.

Housing Commission, a government agency connected to the United States Department of Housing and Urban Development. Terry began working in property management and worked his way through the ranks up to the position of Executive Director of the entire agency. Through his work at Flint Housing Terrence strengthened the existence of the agency in the Flint community. Also, he strengthened the mission of FHC and improved the quality of life for Flint citizens. And enhance housing resources for the disadvantaged community.

To complete his mission, as housing Executive Director, he developed new programs, formed new partnerships and brought community organizations, agencies and churches together. To mention a few he coordinated food drives, community events and job training programs. These programs are still benefiting people who are marginalized and have improved the quality of their lives. His biggest project was the evolution of the housing project Clark Commons that has evolved, is expanding and will change the lives of all who gain the opportunity of living there. More important Terrence was a Christian and a lifelong member of New Jerusalem Missionary Baptist church, recognized and respected by a number of churches and religious organizations throughout the community.

“ *To the Clark Family:*

*I was sorry to hear about the passing of your loved one. Death is liken to a thief that comes and takes away our love ones. Or due to old age and sickness we lose that precious quality of life that leads to death.*

*However, have you ever asked: Is death the end of it all? Or is there something else after death? The bible clears up any question we might have about death. It also shows that there is a real hope for persons who have faith.*

*Yours truly,  
Patricia*
